

BACD Accreditation Book List

These books have been suggested by the Examiners as providing a suitable foundation in the clinical skills that need to be mastered in order to succeed in accreditation. They are by no means the only books that are available, so this list is given as general guidance only.

We have broken the titles down into three sections, depending on your level of prior experience in the area. If in any doubt, start with the “foundational” titles.

All these books should be available from the BDA library (if you are a BDA member), or direct from the publisher. Some of them may also be available from Waterstones or Amazon.

Foundational books

Esthetics of anterior fixed prosthodontics

Chiche G & Pinault A

Quintessence ([www.quintpub.co.uk/020 8949 6087](http://www.quintpub.co.uk/020_8949_6087))
